PT. MILENIAL BERKAH ABADI

ABOUT US

Founded in 2017 in Pasuruan East Java, under the brand name Milenial Kontraktor we began as a small construction business delivering residential, warehouse, and commercial projects, including experience as a subcontractor for Indonesian State Owned Enterprises.

In 2022, the company was officially incorporated as PT. Ardjuna Buana Karya, and in 2025, it was renamed PT. Milenial Berkah Abadi as part of our continued growth and business development.

Since 2017, we have successfully completed more than 250 projects, supported by experienced professionals in architecture and construction.

Today, Milenial Kontraktor operates through four service offices, including Surabaya, Cikarang, and BSD City – South Tangerang, supported by experienced professionals in architecture and construction.

We are committed to delivering quality, efficiency, and reliable project execution with competitive value for every client.

Established Since 2017
250+ Completed Projects
4 Service Offices
Fully Licensed & Legally Registered

VISION

To build better spaces for a better future through modern design, reliable construction, and lasting value.

MISSION

To deliver high quality construction through smart planning, strong collaboration, and reliable execution.

We are committed to combining design, technology, and experienced professionals to create efficient, functional, and valuable spaces while building long term trust with every client and partner.

SERVICES

RESIDENTIAL CONSTRUCTION

We deliver complete residential construction solutions, from planning and design coordination to construction and final handover. Our focus is creating homes that are functional, comfortable, well built, and tailored to each client's lifestyle.

COMMERCIAL BUILDINGS

We build commercial spaces with a strong focus on functionality, efficiency, quality, and brand experience. From offices and retail spaces to cafés and other business facilities, every project is delivered with reliable execution and attention to detail.

RENOVATION & REMODELING

We transform existing spaces into more functional, modern, and valuable environments. Our renovation services cover structural improvements, layout upgrades, architectural enhancement, and complete finishing works.

INTERIOR WORKS

We create interior spaces that balance aesthetics, functionality, and comfort. From material selection to custom details and finishing, every element is carefully developed to reflect the character and purpose of the space.

- WHY CHOOSE US -

Multi City Presence

Four service offices supporting projects across key areas in East Java and Greater Jakarta.

Design & Build Solution

An integrated approach from concept and design to construction and project completion.

Proven Experience

Established since 2017 with 250+ completed projects across residential, commercial, and industrial sectors.

Transparent Process

Clear project planning, progress reporting, budgeting, and communication throughout every stage.

End to End Expertise

Supported by experienced professionals in architecture, engineering, and construction.

Fully Licensed Company

Operating as a legally registered construction company with a professional management system.

PT. MILENIAL BERKAH ABADI

OUR PROCESS

Consultation & Concept Development

We begin by understanding your needs, goals, preferences, budget, and project requirements. Based on your vision and the characteristics of the space, we develop and refine the initial concept, including key ideas, layouts, materials, and design directions.

Planning, Proposal & Agreement

Once the concept is approved, we coordinate the necessary drawings, specifications, material selections, and technical details. We then provide a clear proposal outlining the scope of work, estimated costs, timeline, materials, and deliverables before finalizing the agreement.

Construction & Progress Updates

Our team manages the construction process with careful coordination, skilled workmanship, and consistent quality control. We monitor progress, materials, workmanship, and site activities while providing regular updates to ensure the project remains aligned with expectations.

Final Inspection & Handover

Before completion, we conduct a thorough inspection to ensure all work meets the agreed standards. Once everything is finalized, we complete the handover and provide any necessary guidance for the completed space.

PROJECTS PORTFOLIO

Our portfolio reflects our experience across residential, commercial, and interior projects, combining thoughtful design, quality construction, and attention to detail.

RESIDENTIAL

From private residences to high end homes, we deliver spaces designed around functionality, comfort, and architectural character. Our services cover the entire process, from design development and structural works to construction and final finishing.

COMMERCIAL

We deliver commercial spaces that balance functionality, efficiency, and strong visual identity. Our experience includes offices, retail spaces, cafés, warehouses, sports facilities, and other commercial developments, with a focus on quality execution and long-term value.

INTERIOR WORKS

We create refined and functional interiors tailored to each client's needs and brand identity. From space planning and custom built elements to material selection, lighting, and finishing, every detail is carefully executed to create a cohesive and well-crafted environment.

OUR TEAM

Led by experienced professionals across business, construction, finance, operations, and marketing, our management team ensures every client receives professional guidance, transparent communication, and reliable project execution.

Giving you the confidence that your project is in the right hands, from concept to completion.
